

PLATFORM PROTECTION KIT

BOOM ACCESSORIES

KEEP THE MESS ON THE COVER - NOT THE MACHINE

Keep your equipment looking professional and help reduce cleanup and repairs. The Platform Protection Kit is specifically designed for boom lifts, the kit uses clear static-cling film to provide machine coverage without reducing functionality.

- Designed to protect the platform when painting, finishing drywall, or using spray foam
- Avoid costly re-painting platforms or needing to replace decals
- Open in between rails to allow for outdoor applications
- Durable center console cover can be used multiple times
- Velcro flap in console cover allows for machine operation with cover in place
- Static-cling film is wrapped around the rails for protection and can be disposed of after use
