ROAD & WORK LIGHTS
SERVICE KITS

INCREASE VISIBILITY IN ALL LIGHTING CONDITIONS

The job doesn't always end when the sun goes down, and production and safety depend on being able to see the surroundings. That's why JLG® has developed factory-approved light installation kits for your JLG or SkyTrak® telehandler. Each kit provides everything necessary to add factory quality lighting systems to your machine, regardless of open-air or totally enclosed cab.

Choose from work lights to provide the operator premium visibility for working in less than optimal lighting conditions, road lights that come complete with head/tail lights and turn signals or beacon kits.

FEATURES AND BENEFITS

- Increased visibility in all lighting conditions
- Detailed instructions make for quick, simple installation
- Factory approved and production quality for long-term dependability
- One part number provides everything necessary to properly equip machine
